Course Content

Senior adult nursing support workers look after adults in a range of settings, duties will vary accordingly. In most instances your supervisor will be a registered nurse. Many people suffer from more than one condition eg an older person who has sustained a fall and has a wound that needs regular dressing, may also have heart disease. Some people will need round the clock care, being able to do very little for themselves, requiring you to look after all their personal needs including feeding, washing, going to the toilet as well as carrying out clinical tasks like checking their blood pressure or pulse.
