Course Content

The Chartered Manager Degree Apprenticeship is an exciting work-based route towards developing professionally competent Chartered Managers. It includes three parts:

- Work-based learning, which means that the apprentice is in paid employment for the duration of their apprenticeship and receives on-the-job training and support.
- Business education through the University of Hull leading to a relevant degree (to the value of 360 credits) that maps 100% to the published Chartered Manager Degree Apprenticeship Standards.
- Through both of the above, apprentices are able to acquire knowledge and skills, and prepare for the End Point Assessment, which has the assessment for Chartered Manager embedded.

The course will prepare professional managers to develop fully all aspects of their management and leadership skills, knowledge, self-awareness and behaviours. These include strategic decision making, setting direction and achieving results, building and leading teams, clear communication, developing skills and motivating others, fostering inclusive and ethical cultures, leading change, project management, financial management, innovation, risk management, and developing stakeholder relationships.
