

Computing, Digital and IT

Artificial Intelligence (A.I) and Emerging Technologies - Introduction

In Brief

Start Date / Duration

This course starts on 8th January. Classes are every Wednesday between 9.15am and 12.30pm for 12 weeks, term-time only.

Entry Requirements

There is no requirement for you to have achieved any qualifications or units prior to undertaking this qualification. However, a reasonable standard of computing skills will be required.

You must be aged 19 or above to study this course.

You will achieve

Level 2
Certificate in
Digital and IT
Skills

Course Overview

This 12-week course is designed to enhance your digital skills and explore the impact of AI and emerging technologies. With four comprehensive units, you'll gain practical knowledge to navigate and utilise digital tools securely and effectively. Join us to revolutionise your professional capabilities in today's evolving digital landscape. Perfect for anyone looking to stay ahead in the digital age.

Course Content

You will study the following units:

Digital Skills Career Progression: Level 2 unit worth 3 credits.

Understand the significance of digital skills in the contemporary workplace and explore various job roles demanding digital expertise. Gain insights into the characteristics valued by employers, paving the way for a successful career in the digital economy.

Digital Skills Project: Level 1 unit worth 6 credits.

Develop proficiency in planning, developing, presenting, and reviewing digital projects. Engage in hands-on activities to enhance project management skills and effectively navigate digital project lifecycles.

Exploring New and Emerging Digital Technologies: Level 2 unit worth 3 credits.

Delve into the world of emerging technologies, with a particular focus on artificial intelligence. Explore the functionalities of A.I assistants like ChatGPT and understand how businesses leverage A.I to meet operational needs and drive innovation.

Using Digital Technologies: Level 2 unit worth 3 credits.

Learn how to use a range of digital technologies for different purposes. Understand how to register for digital services such as online shopping and banking and manage online accounts safely and securely. Exploring the use of online document systems to upload and download files, use email, instant messaging, and social media to communicate and collaborate with others with the assistance of A.I.

How will I be assessed?

You will be assessed using a range of methods such as practical tasks and written coursework within a portfolio of evidence. This portfolio will be used to determine your grade.

What Equipment Will I Need?

All equipment will be provided

Where will I study?

SciTech Digital Innovation Centre
Falcon Street
Barnsley
S70 2EY
